TAMPA - Agents from the FBI raided Axiom Worldwide this morning, carrying boxes and bags to a large white van parked in a disabled parking spot in front of the business.

They said nothing about the investigation or what they were confiscating.

Axiom Worldwide is a medical supply manufacturing and delivery business that is located at 9423 Corporate Lakes Drive, just north of the Anderson Road ramp to the Veterans Expressway.

The flagship product of the business is a device that is sold to doctors who treat back pain. The spinal decompression table is designed to relieve lower back pain, according to the company's Web site.

Telephone calls to Axiom, which designs, which also builds and delivers other non-surgical instruments, went unanswered during the raid
